Entering a Member's Weigh-In Data

Introduction	This guide provides the procedures for a Personnel and Administration (P&A) office or Command User to enter a member's Weigh-In data in Direct Access (DA).
References	 (a) Body Composition Standards Program, COMDTINST 1020.8 (series) (b) Coast Guard Body Composition Screening Desk Guide, CG-1331 (c) CG-13 Coast Guard Body Composition Program (d) Video: Body Composition Pilot and AC Overview (e) USCG Body Composition Program FAQs
Body Composition Program Record of Screening Form	 Units eligible to participate in the Body Composition Screening Beta Test should consult ALCOAST 077/24 for guidance. The Record of Body Composition Screening form shall be completed for each member. Click the link or print the form located at the end of this guide: Record of Body Composition Screening form. The Body Composition Pilot Program Record of Screening form is also located on the CG-13's Body Composition Program webpage.
PHS Detailed to USCG	PHS officers detailed to the USCG are required to meet CG weight standards. Weight entries for these officers shall be entered by the USCG P&A Office or SPO. Do not forward weigh-in data to CG-1122 for data entry.
	PHS officers detailed to the CG are required to meet CG weight standards. DA 9.1 does not allow weight entries for these officers. All weight data for PHS officers need to be emailed to CAPT Wade McConnell at Wade.B.McConnell@uscg.mil. CAPT McConnell will enter the data when this issue is fixed. Until this issue is resolved, PHS officers may show as non-compliant on rosters and/or queries.
Timing	Physical characteristics should be entered upon accession, semi-annually when the member is weighed, and within 30 days prior to the class convening date when the member is ordered to resident training. The member's weigh-in data must be updated if the member exceeds the maximum allowable weight (MAW) standards.
	Record all data in DA within 10 working days of each BCS. The entry must be made regardless of a member's compliance or non- compliance with body composition standards. When DA is offline, days will not count against the 10-day requirement.
	NOTE: If a member has not conducted a height measurement during their current tour, one must be completed during the April weigh-in.

Step		Action						
11	 Enter the following information as required by reference (a) and reference (b): Height In Inches – Enter the member's height to the nearest whole inch. (For example, 65.3 would be recorded as 65 inches; 67.6 would be recorded as 68 inches.) 							
	• Max Allowable Weight (MAW) – Enter the member's maximum allowable weight per reference (a).							
	• Neck Size in Inches – Using the lookup, select the appropriate neck measurement. (Remember: Neck size is always rounded up to the nearest half-inch. For example, 14.2 would be recorded as 14.5 inches; 15.5 would be recorded as 16.)							
	• Body Fat % – Using the charts p body fat percentage.	provided in reference (a), en	ter the member's					
	• Waist Size in Inches – Using the lookup, select the appropriate measurement. (Remember: Waist is always rounded down to the nearest half inch . For example, 32.3 would be recorded as 32 inches; 34.6 would be recorded as 34.5 inches.)							
	• Hip Size Inches (Women only) measurement. (Remember: Hip the nearest half inch. For exam 38.7 would be recorded as 38.5 in	 Using the lookup, select t measurements are always r ple, 38.1 would be recorded nches.) 	he appropriate ounded down to l as 38 inches;

Entering a Member's Weigh-In Data, Continued

Procedures,

continued

Step	Action					
12	If the member has exceeded their MAW, enter the Circumference Value (CV) and/or the Abdominal Circumference (AC) Value in inches, rounded down to the nearest half-inch.					
	 Circumference values are calculated from the formulas below and compared with the member's height to determine estimated body fat percentage (see the charts provided in enclosure 2 of reference (a) to determine body fat %). Male CV = Abdomen circumference – Neck circumference (in inches) Female CV = Waist circumference + Buttocks circumference – Neck circumference (in inches) 					
	For guidance on how to measure the Abdominal Circumference , see the Video on the Body Composition Pilot Program and AC Overview found on CG-13's webpage.
