

## Entering a Member's Weigh-In Data

---

**Introduction** This guide provides the procedures for a Personnel and Administration (P&A) office or Command User to enter a member's Weigh-In data in Direct Access (DA).

---

**References**

- (a) [Body Composition Standards Program, COMDTINST 1020.8 \(series\)](#)
- (b) [Coast Guard Body Composition Screening Desk Guide, CG-1331](#)

---

**Body Composition Program Record of Screening Form**

The Record of Body Composition Screening form **shall be completed** for each member. Click the link or print the form located at the end of this guide: [Record of Body Composition Screening form](#).

The Body Composition Pilot Program Record of Screening form is also located on the [CG-13's Body Composition Program](#) webpage.

---

**PHS Detailed to USCG**

PHS officers detailed to the USCG are required to meet CG weight standards. Weight entries for these officers shall be entered by the USCG P&A Office or SPO. **Do not forward weigh-in data to CG-1122 for data entry.**

**PHS officers detailed to the CG are required to meet CG weight standards. DA 9.1 does not allow weight entries for these officers. All weight data for PHS officers need to be emailed to CAPT Wade McConnell at [Wade.B.McConnell@uscg.mil](mailto:Wade.B.McConnell@uscg.mil). CAPT McConnell will enter the data when this issue is fixed. Until this issue is resolved, PHS officers may show as non-compliant on rosters and/or queries.**

---

**Timing**

Physical characteristics should be entered upon accession, semi-annually when the member is weighed, and within 30 days prior to the class convening date when the member is ordered to resident training. The member's weigh-in data must be updated if the member exceeds the maximum allowable weight (MAW) standards.

**Record all data in DA within 10 working days of each BCS. The entry must be made regardless of a member's compliance or non-compliance with body composition standards. When DA is offline, days will not count against the 10-day requirement.**

**NOTE:** If a member has not conducted a height measurement during their current tour, one **must** be completed during the April weigh-in.

---

# Record of Body Composition Screening

## PRIVACY ACT STATEMENT

Pursuant to 5 U.S.C. §552a(e)(3), this Privacy Act Statement serves to inform you of why DHS is requesting the information on this form.  
**AUTHORITY:** U.S. Coast Guard Weight and Body Fat Standards Program Manual, COMDTINST M1020.8 (series); DoD Instruction 1308.3 (November 5, 2002)  
**PURPOSE:** To determine if a United States Coast Guard (USCG) military members meets weight and body composition requirements.  
**ROUTINE USES:** Authorized USCG officials will use this information to determine if a USCG military members meet weight and body composition requirements. Any external disclosures of information within this record will be made in accordance with DHS/USCG-014, Military Pay and Personnel, 76 Federal Register 66933 (October 28, 2011).  
**DISCLOSURE:** The information collected on this form is part of the requirements of your military service in the U.S. Coast Guard

**DATE:** \_\_\_\_\_  Semi Annual  
 Other/ Reason for screening (i.e. probation/PCS): \_\_\_\_\_

**EMPLID:** \_\_\_\_\_ **NAME:** \_\_\_\_\_ **AGE:** \_\_\_\_\_

LAST FIRST

### 1. All members, initial weight screening, no footwear

<b>Height</b> Round to the nearest whole number	inches
MAX Allowable weight per BMI table	pounds
<b>Weight</b> Round to the nearest whole number	Pounds

### 2. Max Allowable Body Fat %

AGE	MAXIMUM BODY FAT		MAX body Fat
	MEN	WOMEN	
LESS THAN 30	22%	32%	%
LESS THAN 40	24%	34%	
40 and above	26%	36%	

### 3. Circumference Value (CV)

**NOTE:** Three complete readings are required, must utilize tension tape. Compare the three totals. Is any difference greater than 1 inch? If yes, complete set 4 and see block 5.

\*\*\* Additional Body Composition Screening sheet **REQUIRED** if conducting measurement with and without clothing for buttocks area ONLY.

	Waist Round down to nearest half-inch. Measure over the bellybutton for males, smallest point for females.	+Buttocks (females only, use 0 for males) Round down to nearest half-inch. Measure the widest point when viewed from side. <b>Over Clothing</b> Y___ N___	-Neck Round up to nearest half-inch, measure below larynx	= Total
Set 1		+	-	=
Set 2		+	-	=
Set 3		+	-	=
Set 4 (if needed)		+	-	=
<b>Enter Circumference Value (CV) as determined below</b>				<b>Inches</b>
<b>Enter Body fat from CIM 1020.8H enclosure (2)</b>				<b>%</b>

### 4. Abdominal Circumference (AC)

**Note:** Three complete readings are required, must utilize tension tape. Compare the three totals. Is any difference greater than 1 inch? If yes, complete set 4 and see block 5.

	MEN MAX 39 INCHES Round down to nearest half-inch. Measure directly above the hip-bone (iliac crest)	WOMEN MAX 35.5 INCHES Round down to nearest half-inch. Measure directly above the hip-bone (iliac crest)
Set 1		
Set 2		
Set 3		
Set 4 (if needed)		
<b>Total AC</b>	<b>INCHES</b>	

	<u>HEIGHT</u>	<u>WEIGHT</u>
	58; 4'10"	131
	59; 4'11"	136
	60; 5'0"	141
	61; 5'1"	145
	62; 5'2"	150
	63; 5'3"	155
	64; 5'4"	160
	65; 5'5"	165
	66; 5'6"	170
	67; 5'7"	175
	68; 5'8"	180
	69; 5'9"	186
	70; 5'10"	191
	71; 5'11"	197
	72; 6'0"	202
	73; 6'1"	208
	74; 6'2"	214
	75; 6'3"	220
	76; 6'4"	225
	77; 6'5"	231
	78; 6'6"	237
	79; 6'7"	244
	80; 6'8"	250

### 5. AC/ CV Average (if needed)

Add the three closest totals from sets 1-4 together then divide by three to find an average.  
 Round the average down to the nearest 0.5:  
 ( \_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ ) ÷ 3 = \_\_\_\_\_ **CV/AC to enter in block 2 or 4**

I agree that the above measurements are accurate and I am aware of the current Body Composition Standards.
