

Strengthening The Private Sector With Our Nation's Military Talent

VETTED

Veterans transitioning from military leadership to industry are facing systemic challenges. Veteran unemployment rates are higher than their civilian counterparts. **Over 70% of transitioning post 9/11 veterans report difficulties landing employment.**

While thousands of corporations claim to have a Veteran hiring initiative, more than 70% of hiring managers say they have a hard time understanding how to translate military experience to the corporate world. Veterans deserve better and the Private Sector needs and deserves leaders of character.

VETTED, in partnership with the State of Texas, Public and Private Universities, and the Texas Private Sector, are joining forces to ensure Texas leads the way so our Veterans are trained and equipped for the next chapters in their lives.

About VETTED

VETTED is the optimal Veteran transition platform to transform proven military leaders into tomorrow's industry leaders and entrepreneurs. VETTED identifies military talent for transition preparation and planning, business executive education, career services, and industry placement in the private sector. VETTED is creating the first State Model, the Texas Model, to serve as the launch pad for successful veteran transitions before moving nationally.

VETTED does not stop until each of its VETTED Fellows are placed in Industry or assist our Veteran entrepreneurs with their very own start-ups.

Our Vision

- Build the First State Veteran Transition Platform - starting with Texas
- Best-in-class Veteran Education Platform in partnership with Public and Private Universities
- Best Pipeline for Veteran Transition and Industry Placement
- Best Talent Pool of Proven Leaders armed with Business Skills
- Reverse the Downtrend in Veteran Entrepreneurship

Call to Action

The Eyes of our Veterans are Upon Us. It's time to show our Leaders of Character that have served our nation that Texas appreciates them. We will not stop until all Veterans have effectively transitioned into their next career!

We Need Your Help

Investors – Your donation will help cover the cost of tuition for eligible post-9/11 Veterans during the 7-month curriculum. The cost for one veteran during the Veteran Accelerated Management Program is \$20,000 dollars. Your generosity will ensure VETTED Fellows are educated and prepared for success in the private sector.

Companies – Texas is home to some of the world's most admired corporations. We need your support to make our vision a reality. We need partner companies that are willing to bring our VETTED Fellows into their organization for the project based work and potential employment.

501(c)(3)

VETTED is a performance based organization focused on effective platforms to provide Veterans the skills needed to succeed in their second career. We are committed to achieving a Program Expense Ratio of 80%.

THE VETTED TRANSITION PROCESS PREPARING VETERANS TO REACH THE NEXT RIDGE LINE IN INDUSTRY

VETTED

Veteran Accelerated Management Program

Our Veteran Accelerated Management Program (VAMP) pilots will run in 2017 through the University of Texas at Austin McCombs School of Business and Texas A&M University Mays School of Business.

This is the most comprehensive Veteran Transition on the market:

The Veteran Accelerated Management Program combines 5 months of distance learning in business fundamentals (Marketing, Finance, Accounting, Operations) with 2 months of comprehensive residential graduate level business instruction. This highly engaging and interactive program utilizes cases, presentations, simulations, performance assessments, guest speakers, and the first-ever Psychology of the Veteran Transition to ensure Veterans are well-prepared for the challenges that await them in the corporate sector. Not only are these veterans developing the business acumen they need to succeed in the corporate world, but they are also provided world-class career services including resume development, mock interviews, and networking techniques.

During the residential education module, Veterans can choose from 1 of 2 capstone options:

Micro-Consulting Capstone

Embedded with a corporate partner in a small group to address a corporate level issue. At the conclusion of the course, teams will report their findings and recommendations to their clients.

Veteran Entrepreneurial Capstone

Engage in the business model generation for their very own start-ups. This capstone culminates in a pitch competition to a panel of venture capitalists, angel investors, and serial entrepreneurs. At the conclusion of the course, Veterans have the option to apply for the Bunker Labs or The Jonas Project to continue with the execution of their start-ups.

Future Programs

Veteran Business Foundations Program

for non-commissioned officers.

Industry Specific Education

in data analytics, full-stack web development, cyber security, and other high-demand IT based professions.
